SUMMARY

Computer Science undergraduate with specialization in AI/ML and proven experience in full-stack web development. Currently contributing to real-world projects as a Full Stack Development Intern at Techbrill Solutions, with expertise in MERN stack technologies. Demonstrated leadership capabilities through directing technical teams and content creation for university-wide events. Strong foundation in Python and C++ with hands-on experience in machine learning algorithms and data visualization. Seeking to apply technical skills and collaborative experience to drive innovation in software development roles.

TECHNICAL SKILLS

Languages: Python, C++, Java, HTML, CSS, JavaScript, TypeScript

ML/Data Science: NumPy, Pandas, Scikit-learn, TensorFlow, Keras, Matplotlib, Data Visualization (3+ projects)

Databases: MongoDB, SQL

Tools: Git, VS Code, Jupyter Notebook, Google Colab, WSL

Frameworks: React.js, Express.js, Node.js, Next.js, Vite.js, Vercel, Streamlit, Aceternity UI

Web Tech Stack: MERN stack

PROFESSIONAL EXPERIENCE

Full Stack Web Development Intern

06/2025 – Present

Techbrill Solutions

Remote

- Developing and optimizing business-oriented web applications using React.js, Node.js, and MongoDB in collaborative remote environment
- Created 50+ reusable UI components improving development efficiency and maintaining consistent design system across projects
- Contributed 50+ commits in 1 month demonstrating consistent code delivery and version control best practices
- Implemented website performance optimizations resulting in improved user experience and business metrics for client projects
- Collaborated with experienced development team on real-world projects, gaining hands-on experience in full-stack development lifecycle

Content Director

09/2024

SPACEVITA - Space Innovators Society VIT Bhopal

University-wide Event

- Produced technical documentary viewed by 500+ attendees, including 3 ISRO directors, earning 8/10 average rating
- Designed workflow system that reduced production time from 25 to 15 days (40% improvement) with team of 6

Content Team - Cybersecurity Magazine (CyberZine)

03/2024 – 11/2024

VIT Bhopal University

Annual Publication

- Selected through a competitive interview process for the university's annual cybersecurity magazine. Collaborated with a team of researchers and editors.
- Conducted in-depth research on **lattice-based cryptography** and its security implications.
- Explored **blockchain-based cyber insurance systems**, analyzing risk mitigation strategies.
- Analyzed a sophisticated refund scam targeting Amazon, orchestrated by hackers in India, and its impact on the company and customers.

TECHNICAL PROJECTS

Geodata Visualization System

02/2024

IIRS/ISRO Certificate Project

Individual Project

- Developed dashboard that processed 5.3GB of satellite imagery with 95% satisfaction from 20 usability testers
- Implemented ML algorithm classifying 7 terrain types with 85% accuracy, surpassing baseline model by 15 points
- Presented findings to panel of 5 ISRO scientists, receiving an invitation to regional symposium with 150+ attendees

Healthcare Innovation Prototype

10/2023

VIT-Johns Hopkins University Health Hackathon

Top 100 Competitors

- Ranked among the top 100 competitors in the hackathon, successfully meeting most evaluation parameters set by the judges.
- Engineered a MERN stack web application for healthcare diagnostics, integrating React, Node.js, Express, and MongoDB.
- Designed an intuitive UI/UX for seamless patient data entry and real-time analysis, enhancing user accessibility.
- Optimized MongoDB queries to improve data retrieval speed by 40%, ensuring efficient medical data management.

EDUCATION & CERTIFICATIONS

Bachelor of Technology - Computer Science (AI & ML)

01/2023 – 01/2027 (Expected)

Vellore Institute of Technology (VIT) Bhopal

CGPA: 8.22 (current till date)

- Relevant coursework: Machine Learning Algorithms (A+), Deep Learning (A), Data Structures (A), Database Systems (A-)

Cloud Computing (Elite Certificate)

01/2025 – 04/2025

NPTEL, IIT Kharagpur

64% Consolidated Score, Top Percentile Performance

Geodata Processing using Python

02/2024

Indian Institute of Remote Sensing (IIRS), ISRO

7.5 Hours, 100% Completion Rate

MATLAB Onramp

08/2023

MathWorks Training Services

Mastered 15 core computational concepts with 92% assessment score
